## PART A - INTRODUCTION

This Customer Charter outlines the commitments, responsibilities and standards of service that North East Water will provide to our customers. It sets out North East Water's obligations to you and is consistent with the Essential Services Commission's Water Industry Standard – Urban Customer Service for Victorian metropolitan and rural urban water corporations. This includes specific standards and conditions of service that apply to all water businesses in Victoria. In addition it sets out our agreed performance standards that apply particularly to North East Water.

The Customer Charter will assist should you require information or advice on our services. North East Water will be regulated on commitments made in our Customer Charter and this information will be publicly available. The Customer Charter does not remove any obligations of North East Water to comply with the provisions of the Water Act 1989, other water law or statutory obligations.

## PURPOSE

The purpose of this Customer Charter is to specify standards and conditions by which North East Water will provide water supply services intended for drinking water, reticulated reclaimed water services and sewerage services.

## AMENDMENT TO THIS CHARTER

North East Water's Customer Charter may be amended:

- a. by direction of the Essential Services Commission (ESC), and
- b. following consultation with customers and stakeholders

and will at all times reflect the requirements of the Water Industry Standard – Urban Customer Service issued by the ESC.

## COMMENCEMENT

The North East Water Customer Charter 2023 comes into effect March 2023, which replaces North East Water's Customer Charter 2021.

## SEPARATE WRITTEN AGREEMENTS

A separate written agreement for the provision of a service made before 1 November 2004 need not comply with the Customer Service Code. A separate written agreement made after 1 November 2004 for the provision of a service cannot reduce the rights of a customer unless:

- a. North East Water can demonstrate that meeting the Customer Service Code requirements is not practical, and
- b. North East Water expressly identifies significant departures from the Customer Service Code to the customer in writing.

A reclaimed water contract need not comply with the Customer Service Code if it does not provide for domestic reticulated reclaimed water, or if the ESC expressly decides otherwise.

## PART B – STANDARDS AND CONDITIONS OF SERVICE AND SUPPLY
